DETECT

UNUSUAL MOTION DETECTED AT MAIN PLANT EXIT

Video security cameras detect an individual who is walking against the predetermined directional exit. Breaking this protocol triggers an alarm. In addition, radio alerts are immediately sent to security personnel.

ANALYZE

PERSON FLAGGED AS DANGEROUS

The security operations centre acknowledges the alert and identifies the person as acting aggressively as they move into the large lobby of the plant.

COMMUNICATE

RESOURCES DISPATCHED

Security receives a voice alert and immediately intercepts the intruder before harm can occur.

RESPOND

SITUATION RESOLVED

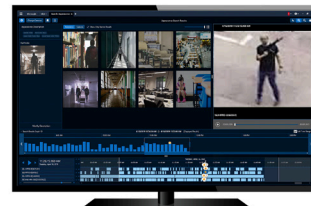

Security has prevented harm, so the incident is logged including video feeds for evidence along with other relevant data allowing for further training and analysis.
